Table of Contents

SUB-THEME OF THE COMPETITION

1. EMPOWERING LOCAL VALUE CHAINS: INCLUSIVE INNOVATION FOR CIRCULAR AND ADAPTIVE BUSINESS FUTURES
2. BRIDGING THE SKILLS GAP : FUTURE-READY TALENT AND VOCATIONAL TRANSFORMATION FOR ALL INDUSTRIES
3. BUSINESS IN CRISIS: DESIGNING RESILIENT AND CIRCULAR MODELS FOR SYSTEMIC SHOCKS

TERMS AND CONDITIONS COMPETITION

SEMIFINAL ROUND RE-REGISTRATION MECHANISM

BPC IBP 2025 PARTICIPANTS

ASSESSMENT SYSTEM

Sub-Theme of The Competition

1. Empowering Local Value Chains: Inclusive Innovation for Circular and Adaptive Business Futures

The national industry is still dominated by the 'take, make, dispose' economic model, which produces large amounts of waste and is ecologically unsustainable. According to the Ellen MacArthur Foundation (2023), more than 90% of global raw materials become waste after a single use. Indonesia alone produces more than 18 million tonnes of plastic waste each year, with a formal recycling rate of only around 11% (KLHK, 2023). On the other hand, various community and SME initiatives have emerged that transform production waste into value-added products, but they still face challenges in accessing technology, funding, and markets. Participants are challenged to design business plans that empower local value chains through inclusive and scalable business models based on the circular economy by integrating vocational innovation, digital transformation, and cross-sector partnerships to create business solutions that are adaptive to crises, socially impactful, and environmentally sustainable.

Sub-Theme of The Competition

2. Bridging the Skills Gap: Future-Ready Talent and Vocational Transformation for All Industries

Although industry demand for adaptive, digitally literate, and sustainability-oriented workers continues to increase, Indonesia's education system is still unable to produce graduates who meet the dynamics and demands of today's world of work. This skills mismatch is reflected in the persistently high rate of educated unemployment, while many sectors such as manufacturing, renewable energy, and information technology are experiencing a shortage of competent workers. The World Economic Forum (2023) states that more than 50% of the global workforce will need to undergo reskilling in the next five years to remain relevant, while the Indonesian Ministry of Manpower (2023) notes a significant gap between the education curriculum and industry needs. To address these challenges, a comprehensive transformation of the vocational education system is needed through strengthened collaboration between the government, industry, and educational institutions (triple helix), the development of a digital and entrepreneurship-based competency curriculum, and the provision of inclusive access to reskilling and upskilling training. However, the question remains: what are the effective and measurable strategies to bridge this skills gap and ensure that Indonesia's vocational talent is truly prepared to face the challenges of the green and digital economy? (OECD, 2023; McKinsey & Company, 2022).

Sub-Theme of The Competition

3. Business in Crisis: Designing Resilient and Circular Models for Systemic Shocks

Global crises such as the COVID-19 pandemic, geopolitical tensions, and new tariff policies from major countries such as the United States have exacerbated the instability of global supply chains. At the same time, exchange rate fluctuations, the energy crisis, and technological and AI disruptions are accelerating drastic changes in market structures. In this context, conventional business models have proven to be vulnerable to systemic shocks. The OECD report (2022) shows that more than 60% of MSMEs in developing countries do not have adequate business resilience strategies. Participants were challenged to design linear business solutions and emphasise the importance of building resilient, circular economy-based business models that are able to absorb shocks, minimise external dependencies, and prioritise efficiency and sustainability.

Terms & Conditions Competition

1. Each participant **must** comply with the procedures and conditions set by the committee.
2. The business plan proposal submitted can be in the form of goods or services.
3. The proposed business idea can be a product that has been developed or is still in the design stage.
4. Participants **are required** to choose one of the attached sub-themes.
5. The proposal and work submitted must be **original**, **not** containing any elements **of plagiarism**, and **have never** won in any competitions.
6. Works **may not** contain elements of pornography, SARA, or anything demeaning or harassing.
7. Participants are **responsible** for all consequences of copyright infringement.
8. The committee **has the right to disqualify** participants and revoke the championship title from winners if **they are proven to have cheated**.
9. Proposals that have been submitted will be assessed by a jury.
10. The decision of the jury and committee is **final** and **can be accounted for**.
11. Participants who are declared **to have passed** the Preliminary Round must re-register by paying a certain amount. nominal fee and **are required** to submit a mini-proposal based on the BMC they have created. **The semifinal round** will be held **online**.
12. **The Final Round** is held **offline**. Participants who qualify for the final round are required to be present in Malang.

Terms & Conditions Competition

13. The team that is **entitled** to proceed to the final round is the team that is declared **to have passed** the proposal semifinal round.
14. Participants who advance to the final round **are required** to create a mini prototype based on the submitted business plan.
15. The announcement of the finalists will be made via Instagram @ibp_ieub, and the finalists will be put into a group for further coordination.
16. Anything not included in this guidebook can be included later and communicated to all participants.

Final Round

Semifinal Round Re-registration Mechanism

1. Participants who pass to the semifinal stage are required to re-register for the 2025 IBP BPC Competition, which will be open from September 9, 2025 - September 16, 2025. Re-registration can be done at the link <https://academy.ibpub.org>.
2. Re-registration is only **done by one person**, namely **the team leader**.
3. All fields in the form **must** be filled with appropriate and valid team and personal data.
4. Participants **are required** to pay the registration fee with the following details:

Semifinal Round	Registration Fee	
	National	International
Early Bird	IDR 150,000	10 USD
Normal	IDR 170,000	12 USD

5. Registration fees are transferred to the following account:

- **BCA Bank (Mastercard)**
Account No.: 1662614763
by MOCHAMMAD ARYASATYA
- **Bank MANDIRI (VISA)**
Account No.: 1290013105313
by MOCHAMMAD ARYASATYA
- **BNI Bank (GPN)**
Account No.: 1765217609
by MOCHAMMAD ARYASATYA NUGRAHA

Semifinal Round Re-registration Mechanism

6. **Proof of payment** must be uploaded on the registration form with the file name format: (Payment_Early Bird/Normal_TeamName). Example: Payment_Early Bird_Three Glory
7. After submitting the registration form, the team leader will receive a confirmation email within 24 hours of completing the form.
8. If the registration is incomplete or invalid, participants will receive feedback to correct and resubmit the form as soon as possible, and if they do not receive a confirmation email within 24 hours, immediately contact the contact person listed at the end of the guidebook.
9. The announcement of the finalists who have passed the semifinal round will be made on September 30, 2025, via email to the team leader.

Semifinal Round Competition Mechanism

At this stage, participants who have passed the semifinals will send a mini proposal, which will be used in the competition with the following provisions:

- Use Times New Roman *font with a size of 12pt*
- Spacing 1.5 and paragraphs aligned right and left (*justify*)
- Margins 4 cm (*left*), 3 cm (*top, bottom, right*)
- A4 portrait paper size
- Writing proposals must use good and correct English.
- The proposal that has been made is sent in .pdf format with the file name: BPC2025_Team Name_Chosen Sub theme_Proposal title.

Example : BPC2025_IBP Team_ Sub Theme 1_Coffee Shop

- Submitted proposal materials must align with the specified theme. If the proposal does not align with the theme, the committee has the right to reject it.
- Participant's proposals will be assessed by a jury.
- The 10 teams with the highest scores will be selected to enter the final round.

Assessment System

1. The jury consists of **1 lecturer** from Industrial Engineering, Faculty of Engineering, Brawijaya University and **2 guest judges**.
2. The assessment is carried out **objectively** according to predetermined conditions.
3. The jury's assessment results are **absolute** and **cannot be contested**.

Proposal Assessment

No	Assessment criteria	Weight(%)
1.	Formatting	5
2.	Risks and Mitigation Strategies	15
3.	Market Analysis	15
4.	BMC	10
5.	Proposed Business Strategy	25
6.	Financial Projections	15
7.	Product and Service Offerings	15
